Application for the rental of ITEA S.p.A affordable housing

To easily fill out the online application and get all the useful information for the choice of the apartments, please read the notice published on the web page of the local authority where you are going to submit your application.
So you will know in detail how many and which apartments are available for your household, the characteristics of each apartment (floor area, number of rooms, type of heating, accessibility barriers, etc.), the floor plans and photographic documentation.

In addition, for the apartments available after a *do-it-yourself-renovation*, you will find the “Estimated Bill of Quantities” describing the works to be carried out and the “Financial Overview” indicating the maximum reimbursable expenditure.
Do-it-yourself-renovation apartments are units that require maintenance works to be carried out by the tenant before moving in. The costs will then be reimbursed by ITEA.

9. Apartment selection: preference order

Apartment selection

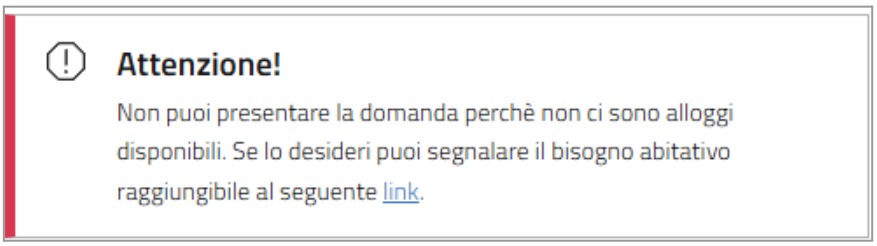

The system displays the number of available apartments based on the household composition indicated in the application:

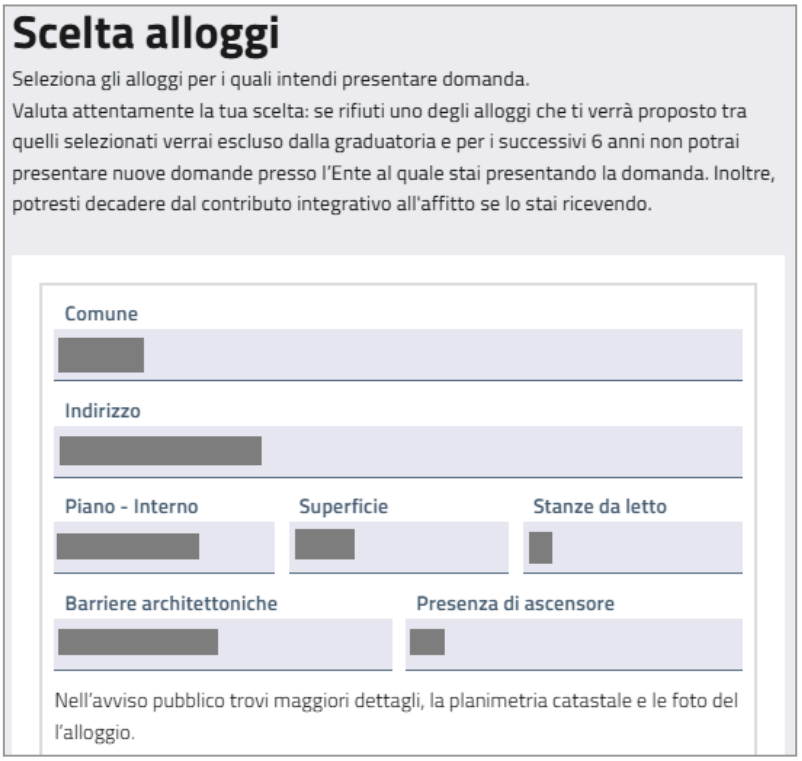

Attention! To choose the most suitable apartment for your household, consult the local authority's notice for all useful information (minimum and maximum number of occupants, surface area, rooms, heating, facilities for motor disabilities, etc.) in addition to the floor plan and photos. Also check if the apartment requires work at your expense; in this case, ITEA will reimburse you for the costs (do-it-yourself-renovation apartments).

If there is at least one apartment, click on the “Avanti” button to continue.

If there are no available apartments, you can't continue the submission of the application. You can read the following message "Attention!You can't submit the application because there are no available apartments. If you want you can report your housing need at this link". More information at Chapter 14. Segnalazione del bisogno abitativo di alloggi a canone sostenibile).

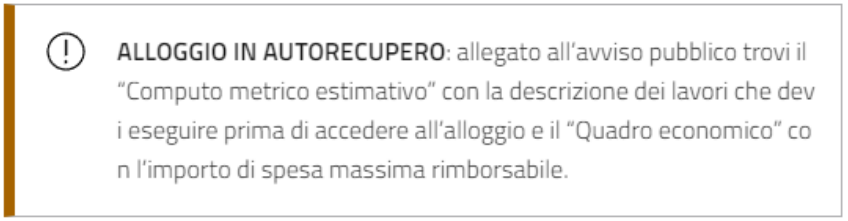

If at least one apartment is available, each one is presented with a summary sheet containing key information. The notice published on the web page of the local authority provides a complete description, including all the details, a cadastral map, and photos of the properties.

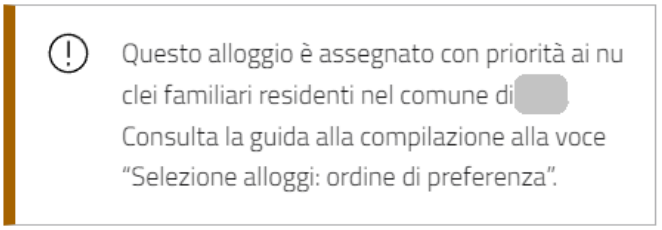

Apartments selection. Select here apartments for which you are going to submit

the application.
Carefully consider your choice: if you refuse one of the apartments offered to you from those selected, you will be excluded from the ranking and for the next 6 years you will not be able to submit new applications to the local authority to which you are submitting the application now. Furthermore, you may lose your rent contribution if you are currently receiving it.

The following messages can appear:

if it is a do-it-yourself-renovation apartment, meaning it requires renovation work at your expense before it can be occupied. The expenses incurred will then be reimbursed by ITEA. The complete list of renovations, costs, and maximum reimbursable expenses can be found in the notice of the local authority.

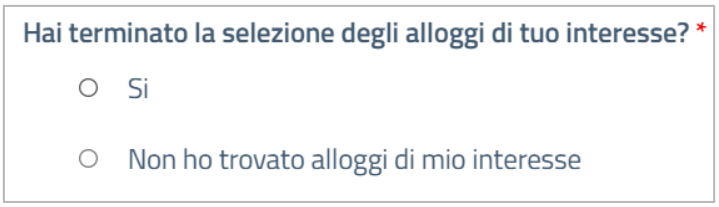

if it is an apartment with a specific priority in the assignment, meaning it will be given as a priority to families residing in the municipality where it is located, provided that they have indicated this as their priority among their expressed preferences. Failure to indicate this priority is equivalent to the applicant's waiving priority in the assignment proposal. Further details can

be found in the next section of the guide (“Alloggi selezionati: ordine di preferenza (Selected Accommodations: preference Order”).

To select one apartment, tick “Scelgo questo alloggio (I choose this apartment)”

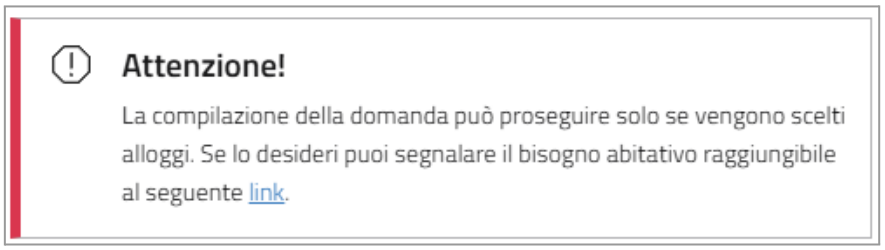

At the end of the apartments list the following statement appears (“Did you finish the selection of the apartments?”)

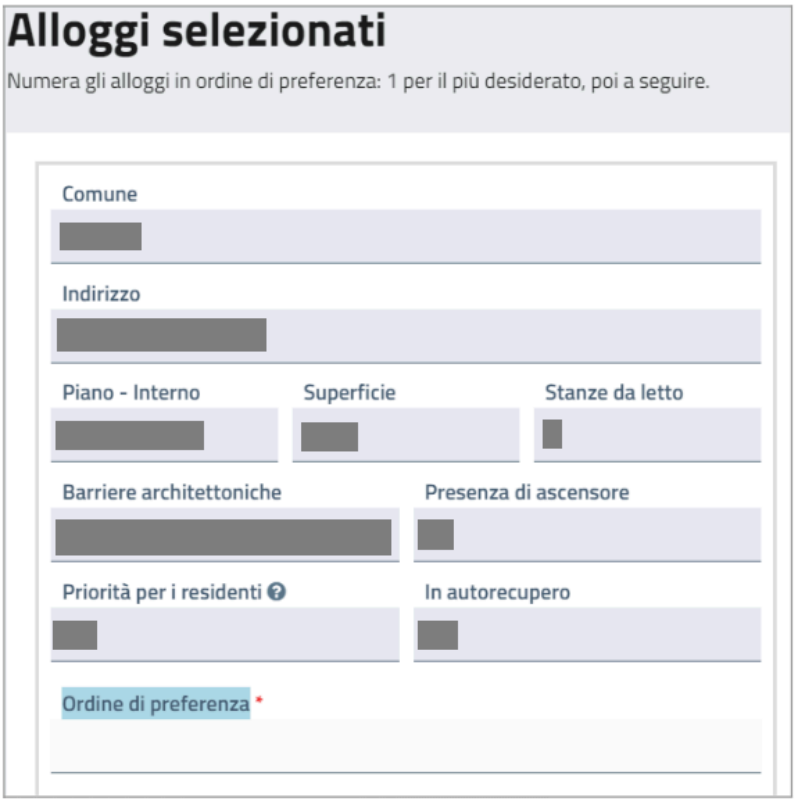

If you select "Non ho trovato alloggi di mio interesse (I have not found accommodations that interest me)" you cannot continue with the application.

You can see the following message and if you want you can report your housing need at this link”. More information at Chapter 14. Segnalazione del bisogno abitativo di alloggi a canone sostenibile).

Selected apartments: preference order

Now the system shows you the list of apartments you have selected and asks you to indicate, in the appropriate field, the order of preference for the possible assignment proposal of one of them.

In the field:

- “In autorecupero (do-it-yourself-renovation)” you can read if the apartment is a do-it-yourself-renovation one or not.
- “Priorità per i residenti (Priority for families residing)”:“Sì (Yes)” means that the apartment will be given as a priority to families residing in the municipality where it is located, provided that they have indicated this as their priority among their expressed preferences. The following examples help you to better understand this mechanism.

Example 1:

An available accommodation is located in Municipality X and has a priority assignment constraint for residents in the same municipality. The household resides in Municipality X.

Case 1 – The household chooses the accommodation as first preference:

👉 *in this way, it expresses the priority choice of the accommodation*

Case 2 – The household chooses the accommodation as second preference or doesn't choose it:

👉 *in this case, it doesn't express the priority choice of the accommodation and effectively waives priority in the assignment proposal*

Example 2:

Two available accommodations are located in Municipality X and have a priority assignment constraint for residents of the same municipality. The household resides in Municipality X.

Case 1 – The household chooses the accommodations as first and second preference:

👉 *expresses priority choice for both accommodations*

Case 2 – The household chooses one accommodation as first preference and doesn't choose the other as second preference:

👉 *expresses priority choice only for the accommodation chosen as first preference*

Case 3: – The household does not choose the accommodations as first and second preference or does not choose them at all:

👉 *in this case, it does not express priority choice for the accommodations and effectively waives precedence in the assignment proposal.*

Example 3:

There are accommodations available located in Municipality X and they have a priority assignment constraint for residents in the same municipality. The household is NOT resident in Municipality X.

👉 *if the household chooses these accommodations, it will NOT have priority in the assignment proposal: the assignment will instead be tied to any households resident in Municipality X who have expressed a priority choice for the accommodations.*

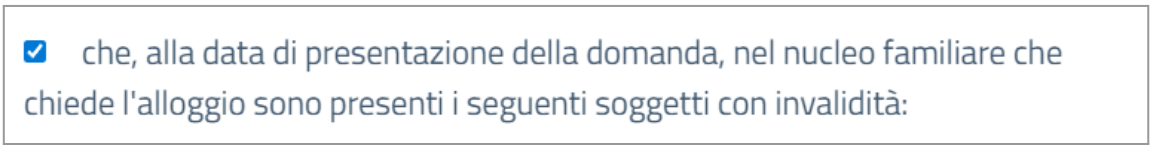

ATTENTION:

Any notification of availability of one of your selected apartments will be sent to the contact information listed in the "Contacts for sending communications" tab (6. Contact details) (email, mobile phone number enabled to receive SMS, or digital address), if they have been correctly provided. Report any changes promptly to ensure you receive this notification.

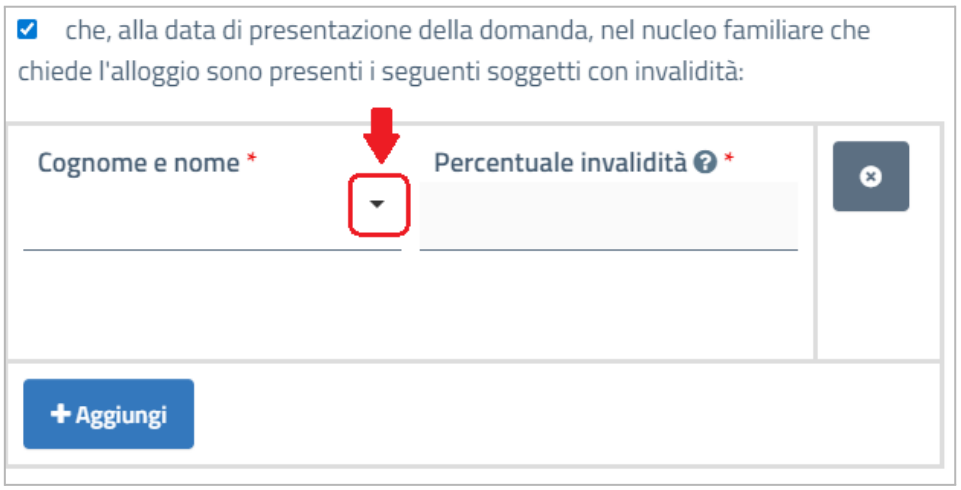

10. Family condition

Disability

Select the following declaration if one or more members of the household (for whom you are applying for, including yourself as the applicant) have certified disabilities:

then select the names from the drop-down menu and indicate the percentage of disability reported in the report issued by the medical commission:

- Code 01: the person should not be included in the box, as not considered disabled
- Under 18 person with disability codes 05, 06 and 07: enter 100% in the application

- Over 65 person with disability codes 05, 06 and 08: enter 100% in the application
- Other person 18-64 years: report the percentage of disability indicated in the certificate.

PLEASE NOTE: The “Verbale accertamento sanitario per l’assistenza ai fini dell’inclusione scolastica” (*Medical assessment report for school inclusion support*) is not a valid certification for declaring disability status.

Household with minor children or with persons treated as a child under the law

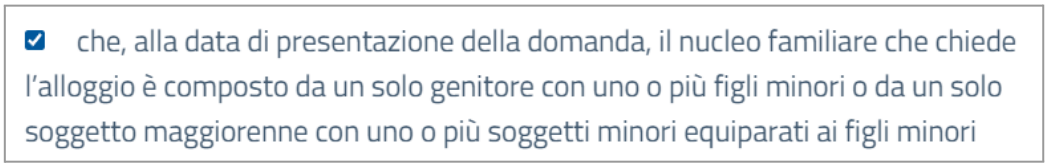

If your household includes minor children of yours and/or your spouse or de facto partner (Law 76/2016) or persons treated as a child under the law, select the following statement

Household with only one parent or adult and with one or more minors

If you are the only adult in your household and you have minor children or persons treated as a child under the law, select the following statement:

Unsuitable dwelling

Select the following declaration:

if you live with your family:

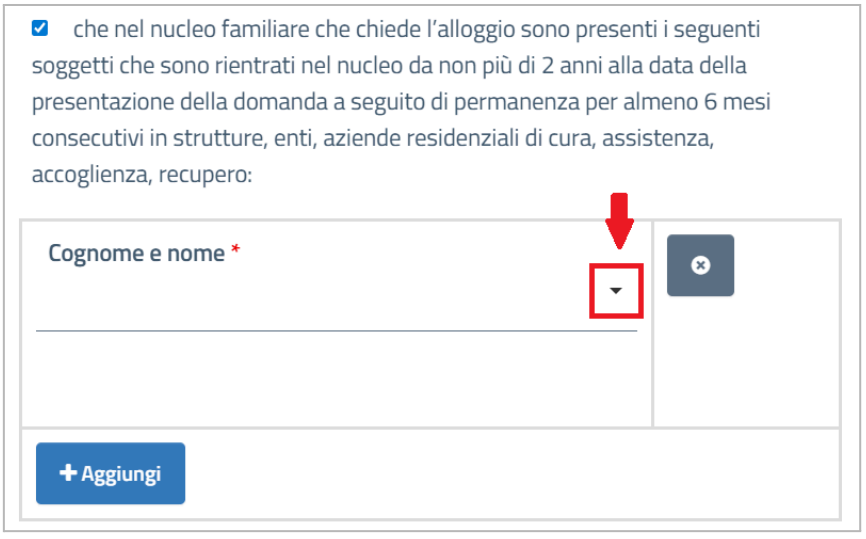

- in accommodation without sanitary facilities or with external sanitary facilities
